Competition Judging Procedure

One copy of your two submissions is sent to the judge, who has no way of knowing the creator of that entry. Submissions are numbered and the judge chooses the winners by the title and number only. The Administrator then tallies that number with a writer. No-one but the Administrator can know who has won any category until the winners are announced at the Festival.

It would be useful to have your work ready, in electronic form, should you be a winner. This helps when preparing work for publication.
